All Victorian government school teachers meet the registration requirements of the Victorian Institute of Teaching (www.vit.vic.edu.au).

This school meets prescribed minimum standards for registration as set down by the Victorian Registration and Qualifications Authority (VRQA) in accordance with the Education and Training Reform Act 2006, inclusive of those schools granted an exemption by the VRQA under minimum standard 2.1 'Student enrolment numbers' and/or 3.1 'Curriculum framework – languages program' until 31 December 2013.

Performance Summary

The Government School Performance Summary provides an overview of how this school is performing and how it compares to all other Victorian government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community will foster engagement and collaboration to support further gains and positive learning experiences for all students.

How to read the Performance Summary 2013

What are student outcomes?

Student outcomes show the achievements of students in this school in English and Mathematics. They also show results in national literacy and numeracy tests and, for secondary colleges, the Victorian Certificate of Education (VCE) examinations. They provide important information about student attendance and engagement at school.

For secondary colleges, the Performance Summary also provides information about how many students at this school go on to further studies or full-time work after leaving school.

You can see these results for the latest year, as well as the average of the last four years (where available).

The Performance Summary also allows you to compare student outcomes for students at this school with the outcomes of students in all other Victorian government schools.

What is a *School Comparison*?

The *School comparison* is a way of comparing school performance that takes into account the different student intake characteristics of each school.

A *School comparison* takes into account the school's academic intake, the socio-economic background of students, the number of Indigenous students, the number of non-English speaking and refugee students, the number of students with a disability, and the size and location of the school.

The *School comparison* measures show that most schools are doing well and are achieving results that are '**similar**' to what we would estimate given the background characteristics of their students. Some schools are doing exceptionally well with the students they have, and have '**higher**' performance. Some schools have '**lower**' performance after taking into account their students' characteristics – these schools will receive targeted support to ensure that there is improvement.

Looking at both the student outcomes and school comparisons provides important information about what a school is doing well and the areas that require further improvement.

Additionally, NAPLAN relative growth charts are provided for each of the NAPLAN domains. These compare a student's current year NAPLAN result to the results of all 'similar' Victorian students (i.e. students in all sectors in the same year level who had the same NAPLAN score two years prior).

If the current year result is in the top 25% their growth level is categorised as 'High', the middle 50% is categorised as 'Medium' and the bottom 25% is categorised as 'Low'.

Percentage of students from this school in the High, Medium and Low NAPLAN relative growth categories.

More information on school comparison performance measures can be found at:

What is the meaning of '*Data not available*'?

For some schools, there are too few students to provide data. For other schools, there are no students at some levels, so school comparisons are not possible. Newly opened schools have only the latest year of data and no averages from previous years. The Department also recognises the unique circumstances of Specialist, Select Entry, English Language and Community Schools where school comparisons are not appropriate.

What is this school doing to improve?

All schools have a plan to improve outcomes for their students. The '*About Our School*' statement provides a summary of this school's improvement plan.

Financial performance and position commentary

The school and School Council have approved expenditure reflecting identified school priorities. The school is in a good financial position, although the Net Operating Statement shows a deficit of \$22,468. This will be paid back in 2014 from our term 3 quarterly grant.

The school has undertaken considerable amount of maintenance work to provide a safe and secure learning environment for students and staff. In addition to this the school has employed support staff to ensure that we cater for the diverse needs of our students.
